Understand How Care Partners Prevent Falls for People with Memory Issues

- Are you providing support to someone with memory issues?
- We invite you to share your experience and wisdom to help us better understand what can help care partners prevent falls for someone with memory issues.

You may be eligible if you

- Currently provide care or support for a **family member or friend** who lives with memory issues
- You have provided such support for **at least 3 months**

We especially welcome care partners of different genders and cultural backgrounds.

You will be asked to complete **a self-paced survey (30-40 minutes), online or in-person** with a study team member.

Compensation will be provided upon completion

Four easy ways to get started:

1. **Scan the QR code** on this flyer
2. **Type “redcap.link/cpstar”** in your internet browser
3. **Email:** care.equity.aging@austin.utexas.edu
4. **Call:** 512-471-1713
